

Make every insight actionable with Productivity monitoring

Fast to deploy

Easy to scale

Total active vs. Idle time

- Tracks active vs. idle time with a flexible idle threshold
- “Active time” = session time minus idle time
- Default 7-day view, customizable up to 1 year
- Inspect isolated moments in specific sessions by scrubbing through recordings
- Compare users or groups to uncover inefficiencies and improve focus

Top applications and websites used

- See which apps and websites consume the most time
- Filter by days (1–365), weeks (1–52), or hours (1–100)
- Filter by user or group to analyze usage patterns
- Identify distractions, optimize tools, and improve workflows

User productivity report

- Visualize hourly productivity with a color-coded heatmap
- Analyze the percentage of active time per hour across sessions
- Filter by date, user, or group for targeted insight
- View session-level activity by clicking heatmap cells
- Get insight into productivity peaks and dips across the team

Sessions outside of work hours

- Set custom work hours and days for reporting
- Track user activity beyond defined business hours and days
- Identify overtime activity and off-hours access trends
- Spot policy violations and burnout risks early through visual reports

Identify rarely used logins and computers to optimize resources and reduce operational waste.

Built for efficiency

Offline mode

Continue tracking productivity metrics even if the server connection is lost

Targeted monitoring

Monitor only specific users or actions; exclude private apps/URLs

Data protection

Preserve privacy with pseudonymization and sensitive data masking

Power BI integration

Enrich Power BI workflows with detailed productivity insights from our platform

Unmatched platform support

UNIX

vmware®

CITRIX®

Why choose Syteca?

Fast deployment with no technical hassles

Scales to thousands of endpoints

Dedicated support with 24/7 access

Low TCO, no hidden fees

The choice of 1,500+ companies worldwide

VISA

Payoneer

SAMSUNG

Česká pošta

Deloitte.

CEBKA CENTRALNA BANKA CRNE GORE

"Clear insight into how time is used. Simple and effective."

"Support understood our case and helped set everything up quickly."
